

FULL-SERVICE MORTGAGE COMPANY

"We try harder so you don't have to!"

Size Does Matter ~

Tri-State Mortgage is a small mortgage company that gives personal service. We don't have voicemail and you can come into our office to discuss your loan needs. No need to get the shuffle with a large bank or lender. Our combined experience and funding ability has kept us in business while the rest of the industry has failed. At Tri-State Mortgage we try harder so you don't have to. So, why not give us a try!

Testimonials

"Frank is a delight to work with and he always called me back. I've been selling real estate for 20 years, and I've never met such a great mortgage broker."

Mortgage Brokers ~

Mortgage Brokers are a great resource for a home buyer or borrower who needs to refinance into a lower rate. The service of a mortgage broker is to select the right loan for you at the lowest rate. With the credit crunch of 2007, most lenders and brokers have gone out of business. Banks have become very tight on underwriting guidelines, and a mortgage broker can fill the gap. No need to surf the internet looking for the "best deal". A good broker has several lenders to shop the loan, if it can be done. Give Tri-State Mortgage a try the next time you are looking to buy or refinance.

"Paul Hernandez followed up with my borrowers and closed the loan on time. I would recommend Paul and Tri-State to anyone."

Experienced ~

The founder of Tri-State Mortgage has 19 years of experience in the mortgage business. This includes conventional loans, FHA/VA, second mortgage, commercial mortgage and private loans. Prior to mortgage origination, the owner had sold real estate and invested in properties.

"Tri-State closed my loan in one week after I spent 6 months with another lender. They did not ask for a lot of paperwork, and they even attended the closing!"
